- can be sent and received to/from any e-mail address
- available for online checking on demand for 10 years as legally required
- works for all user groups
- talk to your regify provider or directly to us:
regibill@regify.com

The regify EU-wide service for simple electronic billing was launched on the 1st of July 2011 based on EU Directive 2010/45/EU. The new EU directive makes the use of a digital signature redundant. Under the new EU Directive all electronic invoicing solutions are permissible that ensure that the identity of the sender of an invoice and the integrity of the invoice itself can be proven for a 10 year period. In addition, the invoice itself must be readable within this period. The regify service secures that in an easy and cost efficient way.
